## Why CPU ?

CPU is recognized internationally by universities throughout the world & graduates can successfully gain entry to reputed universiti in Canada, Australia, Hong Kong, India, Russia, New Zealand, Singapore, United Kingdom, United States & Malaysia. CPU graduates are currently studying at UCLA, Havard, University of Melbourne, University of Toronto, Cornell University. etc. CPU provides an interactive and innovative way of learning approach incorporating North American ideas of education in a student-centred, interactive environment & thus empower students with the skills to compete successfully in the global world.

CPU assessment is based on 70% continuous internal assessment and 30% final examination. Regular assignments, presentation, quizzes, projects and class tests in the course work will groom the students into well-rounded individuals with performance-based skills and the right attitude to meet the challenges inside and outside the campus.

CPU is a highly sought after course by students seeking admissions to Universities in India, Russia, Indonesia, Romania, Ukraine, Malaysia to study medicine. We provide assistance for admission to Canadian, US, UK, Indian, Russian, Indonesian and many other foreign Universities.

Innovative and interactives teaching strategies from group work to independent research units and from traditional to cutting-edge teaching styles. CPU is also pioneering the blended learning style whereby students learn and complete their work using online methods. Quality assurance standards are set by the Ontario Ministry of Education, Canada and is monitored regularly by qualified external Canadian verifiers.

All the more, CPU equips the students with critical thinking skills, independent learning approach coupled with leadership qualities developed through involvement in extra curricular activities. Thus, it provides seamless transition from secondary to tertiary education for the student by ensuring not only a place in reputed Universities but also the competency to face the challenges of the modern world.
